

Addieren, subtrahieren mit ganzen Zahlen

Hausübungsblatt - Lösungen

$$(-3) - (-8) = \underline{-3 + 8} = \underline{5}$$

$$(-3) - (+9) = \underline{-3 - 9} = \underline{-12}$$

$$(+5) + (-9) = \underline{5 - 9} = \underline{-4}$$

$$(+7) + (+8) = \underline{7 + 8} = \underline{15}$$

$$(-15) - (+14) = \underline{-15 - 14} = \underline{-29}$$

$$(-1) + (-7) = \underline{-1 - 7} = \underline{-8}$$

$$(-12) + (+2) = \underline{-12 + 2} = \underline{-10}$$

$$(-4) + (+15) = \underline{-4 + 15} = \underline{11}$$

$$(-10) + (+10) + (+10) = \underline{-10 + 10 + 10} = \underline{10}$$

$$(+8) - (-8) - (+5) = \underline{8 + 8 - 5} = \underline{11}$$

$$(-4) + (-20) - (+8) = \underline{-4 - 20 - 8} = \underline{-32}$$

$$(-2) - (-18) + (+1) = \underline{-2 + 18 + 1} = \underline{17}$$

$$(-1) + (-3) - (-7) = \underline{-1 - 3 + 7} = \underline{3}$$

$$(+15) - (-5) - (-4) = \underline{15 + 5 + 4} = \underline{24}$$

$$(-5) - (-10) + (+13) = \underline{-5 + 10 + 13} = \underline{18}$$
